One team, from the drawing to *years later*.

Devanika Smart Homes is a home automation company in Visakhapatnam, founded and run by Anish Palivela. We design, install and look after automation for villas, apartments, offices and showrooms across Andhra Pradesh and nearby Odisha. You deal with one company – from the first site visit to a service call years later.

5 yr

warranty on SmartNode products*

WHY DEVANIKA

One team, start to finish

01

We design, supply, install and support your automation ourselves, so one company answers for everything.

5-year warranty

02

On SmartNode products, with the exact period confirmed for each item in your quotation.

Made for your home

03

Scenes, panels and layouts are created around your family and your site – not a fixed package.

The right technology

04

IoT, wireless, Zigbee or KNX, chosen to suit your building, new or already lived in.

Everything in one place

05

Lighting, DALI, curtains, locks, gates, CCTV, home theatre and Wi-Fi – one app, one team.

Support that stays

06

Maintenance visits, troubleshooting and upgrades after handover, from the people who installed it.

SEE IT BEFORE YOU DECIDE

Visit our demo flat

Touch panels, lighting scenes, a digital lock and gate control – all running at our office in CBM Compound, Visakhapatnam. Visits are by appointment so the right person is there to show you round. Bring your architect or interior designer along.

BACKED BY SMARTNODE

India's home-grown automation brand, made in-house

25,000+

homes automated

50,000+

active app users

40+

cities

750+

architects associated

Everything for a smart home.

One team that answers for all of it.

Home automation

Control every light, fan, AC, curtain and lock from your phone, a touch panel or by voice – at home or away.

- One app for every room and every device
- Smart lighting, AC & fans, motorised curtains
- Schedules that follow your family's routine
- Works with Alexa, Google Assistant and Siri

Good morning

Movie night

Pooja time

Guests at home

Leaving home

Bedtime

Home theatre

A living room or a full theatre hall that becomes a private cinema with one touch.

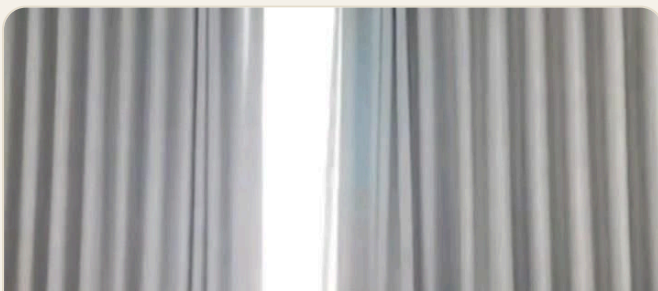

- One-touch lights, screen and sound
- Surround sound tuned to your room
- Lighting looks for movies, sports, games

DALI lighting

Every light dims, tunes and groups on its own, from one clean control line.

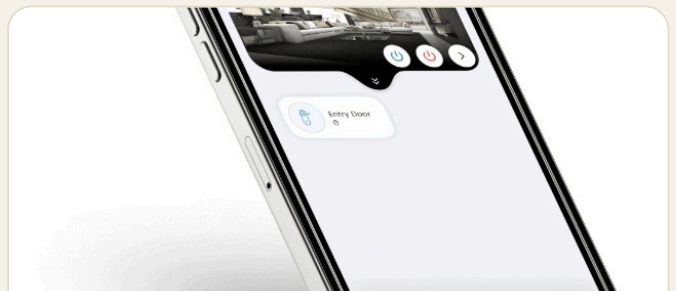

- Smooth, flicker-free dimming
- Warm-to-cool white and colour
- Unlimited scenes, up to 64 schedules

Motorised curtains & blinds

Curtains that open at sunrise and close at dusk – by app, panel, voice or schedule.

- Part of your morning and night scenes
- Quiet motors, track planned on site

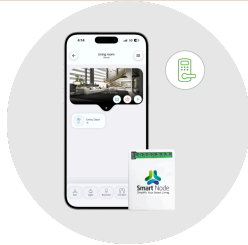

CCTV & security

See your home, shop or office from your phone and keep recordings you can play back.

- Live view from anywhere, night viewing
- Motion alerts; camera positions planned on site

Safe, connected and *wired right.*

Gate automation

Open the gate without leaving the car and let guests in from anywhere. Sliding, swing and other motorised gates.

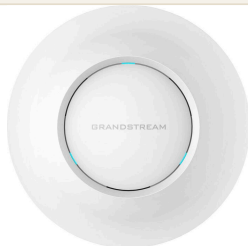

- Remote, voice and touch-panel control
- Pairs with video door phone & CCTV

Digital door locks

SmartNode Bolt locks: fingerprint, RFID card, PIN and key; app and OTP on Wi-Fi models.

- Bolt Core, Bolt Pro and Bolt Pro Max
- Lock the door from your bedtime scene

Wi-Fi & access points

Strong Wi-Fi in every room, planned by the size and layout of your flat or villa.

- Grandstream ceiling access points, seamless roaming
- Grandstream PoE switch – power & data on one Cat6
- Guest & smart-device networks, rack with backup

Smart touch panels

Glass, acrylic, wood or marble touch switches made to order – size, finish, icons and controls.

- Luma & Ariva touch, Cosmos metallic keypads, Home Link screens
- Designed with you on our panel designer

Turnkey electrical works

Homes, shops and industrial sites – design, wiring, panels & switchgear, testing and commissioning.

Lighting design

Cove, ceiling and accent lighting planned with your interior designer and false ceiling.

Service & AMC

Maintenance visits, troubleshooting and upgrades after handover, by the team that installed it.

AUTOMATION FOR EVERY KIND OF BUILDING

IoT

Internet-connected devices controlled from the app, from anywhere.

Wireless

Smart control for existing homes – no breaking walls or rewiring.

KNX

Wired, internationally standardised control for villas and large projects.

Zigbee

Low-power wireless mesh for switches, sensors and reliable scenes.

Switches that look like *part of the interior.*

Our systems use SmartNode automation – designed and made in India, installed and supported by our local team, with a 5-year warranty on SmartNode products.

LUMA & ARIVA TOUCH PANELS

Made to order for every wall

- Replace old switches with one minimal touch plate
- Glass, acrylic, wood and marble finishes
- Silver grey, white, golden grey, black and custom shades
- Custom icons – fan, chandelier, pooja, curtain, AC and more
- Matching sockets, USB and Type-C modules
- Each panel drawn for your room and signed off before ordering

COSMOS

Metallic keypads

Anodised metal keys with a rotary knob, RGB backlight and custom labels. Brushed bronze, champagne or graphite · 2M to 8M.

HOME TUNE · HOME VIBE

Scene keypads

One press sets the whole room – lights, curtains, AC and music together for movie night, guests or bedtime.

HOME LINK PRO · LITE

Smart wall panels

8" screen with precision knob (Pro) or 4" (Lite). Lighting, climate, curtains, scenes and – on Pro – camera view, in one place.

FINISHES & COLOURS

Golden grey

Wood

Marble

Brushed bronze

Brushed champagne

Brushed graphite

Custom shade

Shades in print are indicative – we bring real samples to your site visit.

The smart parts *behind the wall.*

Smart & remote relays

Fit behind your switchboards. Smart (Wi-Fi) devices work from anywhere; remote devices give local control at lower cost – keep using the switches you have.

DALI controller

Wi-Fi 64 or 128 channel. Groups, scenes and schedules for every light; DT6 and DT8 incl. tunable white and RGBW.

RGBW controller

Colour and white strip lighting for coves and ceilings – moods, patterns and tuning effects from the app.

Curtain controller & motor

Wi-Fi curtain motor with exact positioning, whisper-quiet running and manual override; or automate an existing motorised curtain.

IR blaster & IR emitter

Control AC, TV and set-top box from the app or by voice. 360° blaster per room, or a wired emitter with 5 channels for many rooms.

Door & gate controllers

Lock or unlock EM and digital locks (NO/NC) remotely, and open 4-wire gate motors from the app, remote or panel.

NFC tags

Tap your phone on a tag by the door to run a scene – lights, curtains or gate – without opening the app.

Scene switch controller

The brain behind scene keypads and Cosmos – many devices answer one command together.

SMARTNODE BOLT DIGITAL DOOR LOCKS

	Bolt Core	Bolt Pro	Bolt Pro Max
Fingerprint · RFID card · PIN · key	●	●	●
Wi-Fi app unlock & OTP for guests	–	●	●
Access history & battery alerts	–	●	●
Hubless remote access	–	●	●
Tamper alert · intrusion lockout	●	●	●
Visitor bell · USB emergency power	●	●	●
Triple bolt & deadbolt security	–	–	●

NETWORK BACKBONE · GRANDSTREAM

**Grandstream access points**

Slim ceiling units that blend into the false ceiling. Your phone moves between them on its own as you walk around.

**GWN7800 series PoE switches**

Managed switches that power access points and cameras over the same Cat6 cable – no adapters on the ceiling.

Not sure which lock or panel suits you? We bring samples to the site visit, or try them at our demo flat.

One app. *The whole house.*

Every light, fan, AC, curtain, lock, gate and camera in one app – with a simple room-by-room view that children and grandparents can use too. We set it up for you, with a login for each family member.

Room view

Tap a room photo and control what's in it.

Anywhere control

At home or travelling, on Wi-Fi or mobile data.

Family profiles

Separate access for each person and staff.

Voice

Alexa, Google Assistant and Siri.

SMART FEATURES WE SET UP FOR YOU

Scenes

Good morning, movie night, pooja time, guests, leaving home, bedtime.

Scene scheduling

Scenes that run by themselves at set times or days.

Sunrise & sunset

Curtains and lights that follow the real sun, every season.

Geo-fencing

Lights and AC ready as you reach home; all off when you leave.

Action triggers

One event sets off another – unlock the door, passage lights come on.

Tunable white

Warm to cool light for any activity or time of day.

Universal dimming

Dim many lights from one control, smoothly.

Human-centric lighting

Light that follows natural daylight, kinder on sleep and eyes.

NFC tags & widgets

Run a scene from a tap or straight from your phone's home screen.

Works with

From first call to *handover*.

1

Talk to us

Call, WhatsApp or visit the demo flat. Tell us about your home and routine.

2

Free site visit

We check the site or drawings and understand how your family lives.

3

Design & quote

Room-by-room plan, touch-panel designs and a clear quotation.

4

Install

Our own team wires, fits and sets up the app, scenes and voice control.

5

Handover & care

We teach the family, then stay on for service and upgrades.

WHERE WE WORK

About 400 km from Visakhapatnam in every direction – the Andhra coast from Srikakulam to Vijayawada, and into southern Odisha.

Visakhapatnam

Vizianagaram

Srikakulam

Kakinada

Rajahmundry

Eluru

Bhimavaram

Vijayawada

Berhampur

SOLUTIONS FOR EVERY SPACE

Homeowners

Villas, independent houses and apartments – new or already lived in.

Architects & interiors

We plan points, panels and lighting alongside your design and false ceiling.

Builders & hospitality

Apartment-wide packages, hotel and guest-room automation.

Offices, showrooms & clinics

Central control, DALI lighting, CCTV, access and electrical works.

Tip: call us before wiring and false ceiling start – touch panels, access points and DALI lines are easiest (and cheapest) to plan at that stage.

GET IN TOUCH

Let's make your home *smart*.
